Walking alongside survivors of severe Complex Trauma through the stages of healing, growth in truth, and into the fullness of who they are!

OUR MISSION

- Our mission at Hesed Place is to provide progressive, personal, and community resources to survivors of severe complex trauma.
- We strive to eliminate obstacles by providing what a survivor truly needs.
- We are passionate! We hope for each survivor to reach their full potential of freedom, growth, and independence within their life and their community.

TRAUMA-INFORMED-TOWN WITHIN-A-TOWN MODEL

- Development of culturally relevant and role specific Trauma Informed Care curriculum to address needs of complex trauma survivors across communities

COMPLEX TRAUMA

Complex Trauma is the unmanageable and continual exposure to multiple forms of danger over a period of time, shaping ones' self image and beliefs.	Environments -Abuse -Neglect -Abandonment -Failure to meet basic human needs
Healing begins when we replace those toxic relationships, and start to find value in ones' self. We can then start developing relationships with healthy people, have healthy boundaries, healthy service to others, and more.	Effects -Mental Health -Learning Disabilities -Relational Issues -Physical Conditions -Distorted Self Image -Behavioral Outcomes & More
	Response/Reaction -Fight -Flight -Freeze -Any of these responses/reactions can take place, sometimes without the survivor even realizing it.

HEALING PLACE @ HESED TRAUMA RECOVERY COMMUNITY

- If we are human (and we are!), we have all experienced some type of trauma in our lives.
- As one of our followers said,:
- **"We can all benefit from a little bit of healing in some way!"**
- This community is created for YOU!

WORDS ABOUT HESED PLACE

"Nobody else is doing this. We hope you will be an example for other cities across the nation. This is exactly what Complex Trauma Survivors need."

-- Nationally Renowned Trauma-Informed Training Leader

"We are so thankful to Hesed and all of the workers for all the help and support you are giving my friend. I know that you all care very deeply for her and are walking with her every step of the way. We are so thankful to God for Hesed."

-- SURVIVOR'S FRIEND / FAMILY MEMBER

It always touches my heart to see people in the community understand the reality of both the profound long term effects and the reality this type of violence against our humanity indeed is prevalent in our nation and every nation.

I don't know if anyone can truly understand this battle complex trauma survivors wage to reclaim our humanity, but I do know that it's support like Hesed Place that allows for healing to happen."

-- HESED PLACE TEAM MEMBER & COMPLEX TRAUMA SURVIVOR

"There are so few resources currently available for those who have gone through such severe trauma (and NONE that I know of that support someone through "The Whole Journey.") We will be donating monthly to Hesed Place to help those in such great need."

-- Faithful Supporter / Donor
